

About Corgan

A Leading Architecture and Design Firm

Corgan is an employee-owned architecture firm with 23 locations and more than 1,400 team members globally. We work with clients in a variety of sectors including aviation and transportation, data centers, education, government, health, hospitality and retail, mixed-use, multifamily, office, urban, campus and culture and workplace.

Founded in 1938, Corgan has built a strong reputation for agility in design by anticipating marketplace changes and leading clients to thoughtful, data-driven design solutions. Our research insights and design expertise empower us to foresee emerging changes and develop solutions that minimize risk, create flexibility and maximize longevity.
