YOUR
FUTURE
WITH US.**

CORGAN 

The background is a dark, monochromatic photograph of an industrial facility, possibly a power plant or refinery. It features a complex network of pipes, metal beams, and structural supports, creating a sense of depth and scale. The lighting is low, highlighting the textures and forms of the machinery. A white rectangular frame is centered on the image, containing the text.

At Corgan, the
best thing we
build is each
other.

CAREER AGILITY

Corgan's greatest strength is our people — and our universal commitment to delivering projects that succeed on the client's terms. We know each project has a unique set of goals, requirements, and design aspirations. It's our job to understand how to design each space to its fullest potential, that works for its specific function, supports the employees who will occupy it, and inherently drives the culture and mission of the company.

Here, you'll find camaraderie and collaboration as abundantly as curiosity and creativity. You'll work with a team that cares about each other as much as we care about our work. You'll find room to grow, freedom to explore, a stage to be seen — and the safety to fail. We're high design but low ego. Stable as a business, but agile as a practice. Globally present, but personally connected. A firm not everyone has heard of, but one that everyone will. In so many respects, we're the best of both worlds. And that has everything to do with the worlds we're focused on building — environments where our clients and users thrive, and a place where our people can do the same.

AGILITY MEANS OPPORTUNITY

As a firm, we promise Agility in Design — the responsiveness, flexibility, foresight, and expertise that allows our clients to navigate an evolving and increasingly challenging world. The better we understand and solve for our clients' needs, the more we grow. And we've been growing a lot. Simply put, our agility unlocks new opportunities in your career.

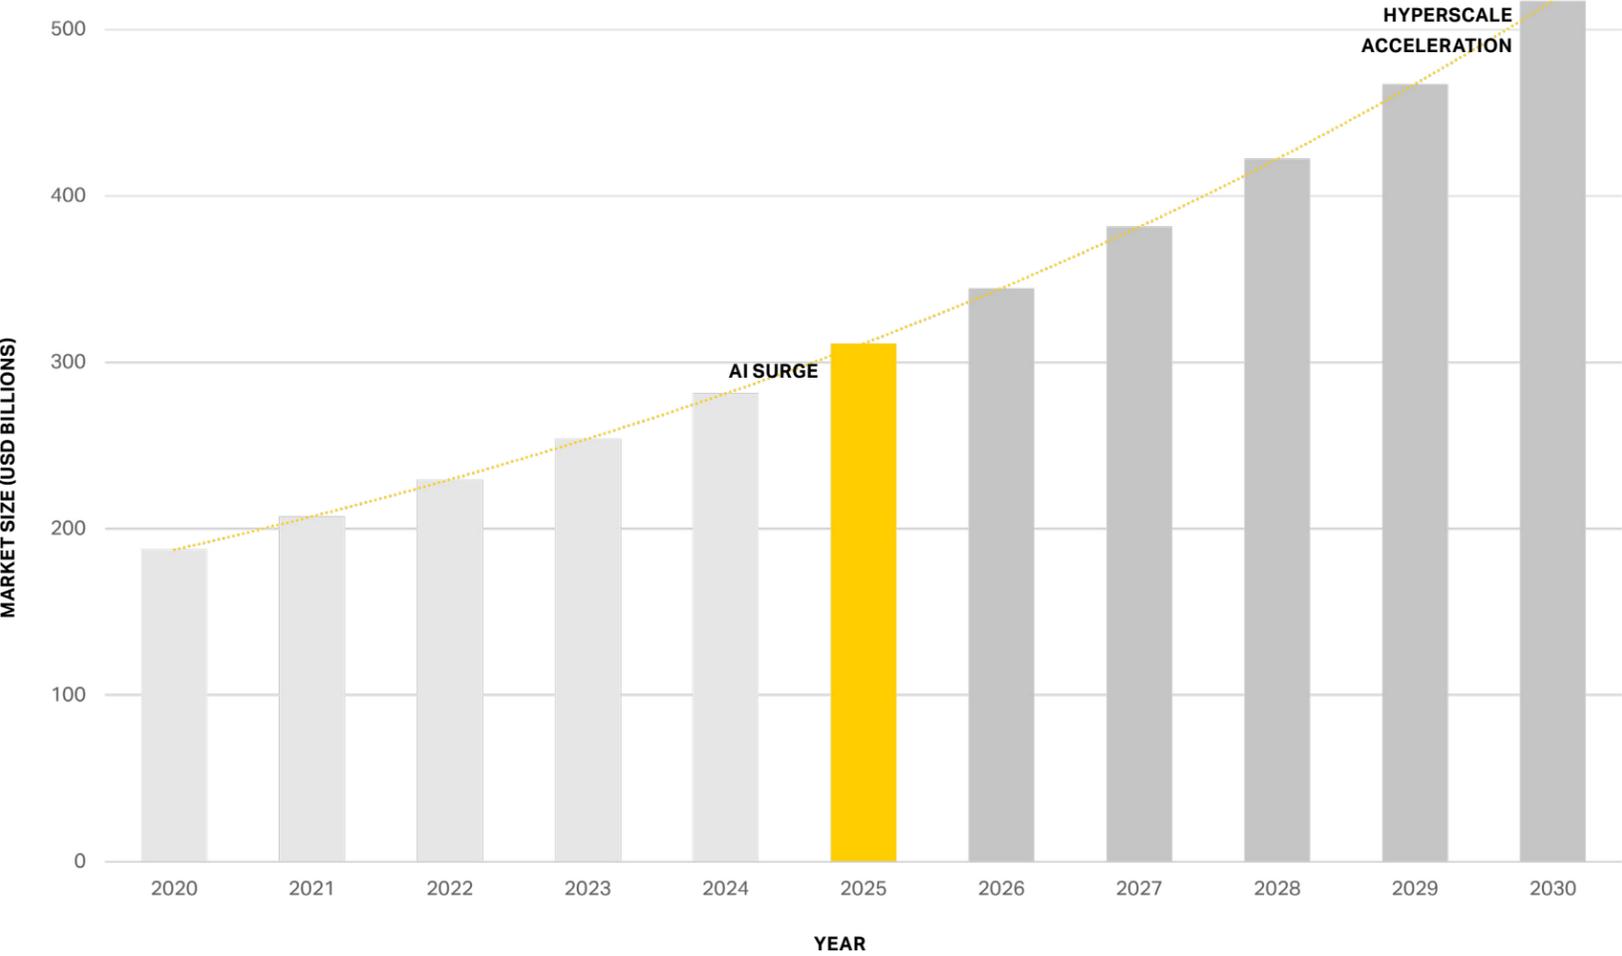

Our work impacts the lives of millions of people around the globe. To us, that's not just a job — it's our calling. Our work is the product of collaboration, ideation, and a human-centered approach. And maybe a beer after work.

GLOBAL DATA CENTER MARKET GROWTH

SHAPE THE FUTURE OF CONNECTIVITY — AND YOUR CAREER

The world's data needs are growing fast — global capacity is projected to expand nearly 15% every year through 2027. Behind that growth is the rise of AI, cloud services, and high-performance computing — and the need for smarter, more sustainable infrastructure. At Corgan, we're not just designing data centers; we're creating the backbone of innovation. Here, you'll work on projects that challenge you, impact communities, and power the technologies of tomorrow. With extraordinary support and room to grow, you'll have the freedom to explore, the stage to be seen, and the chance to make amazing places at a place that makes you amazing.

Series derived from Allied Market Research's published 2020 actual = \$187.35B and 2030 forecast = \$517.17B, interpolated with a constant CAGR (~10.69%). Exact annual values vary by firm and scope.

I chose the Data Center sector because, while it may be part of a larger organization, it feels like a close knit, smaller team where everyone knows one another. This environment has inherently boosted productivity by making communication with the right people quick and easy. The support is amazing. Everyone on your team wants to see you progress and grow just as much as you do. If you stay inquisitive, they will take time out of whatever they're doing to make sure your given the proper tools to succeed.

BRANDON HARRIS

Project Coordinator

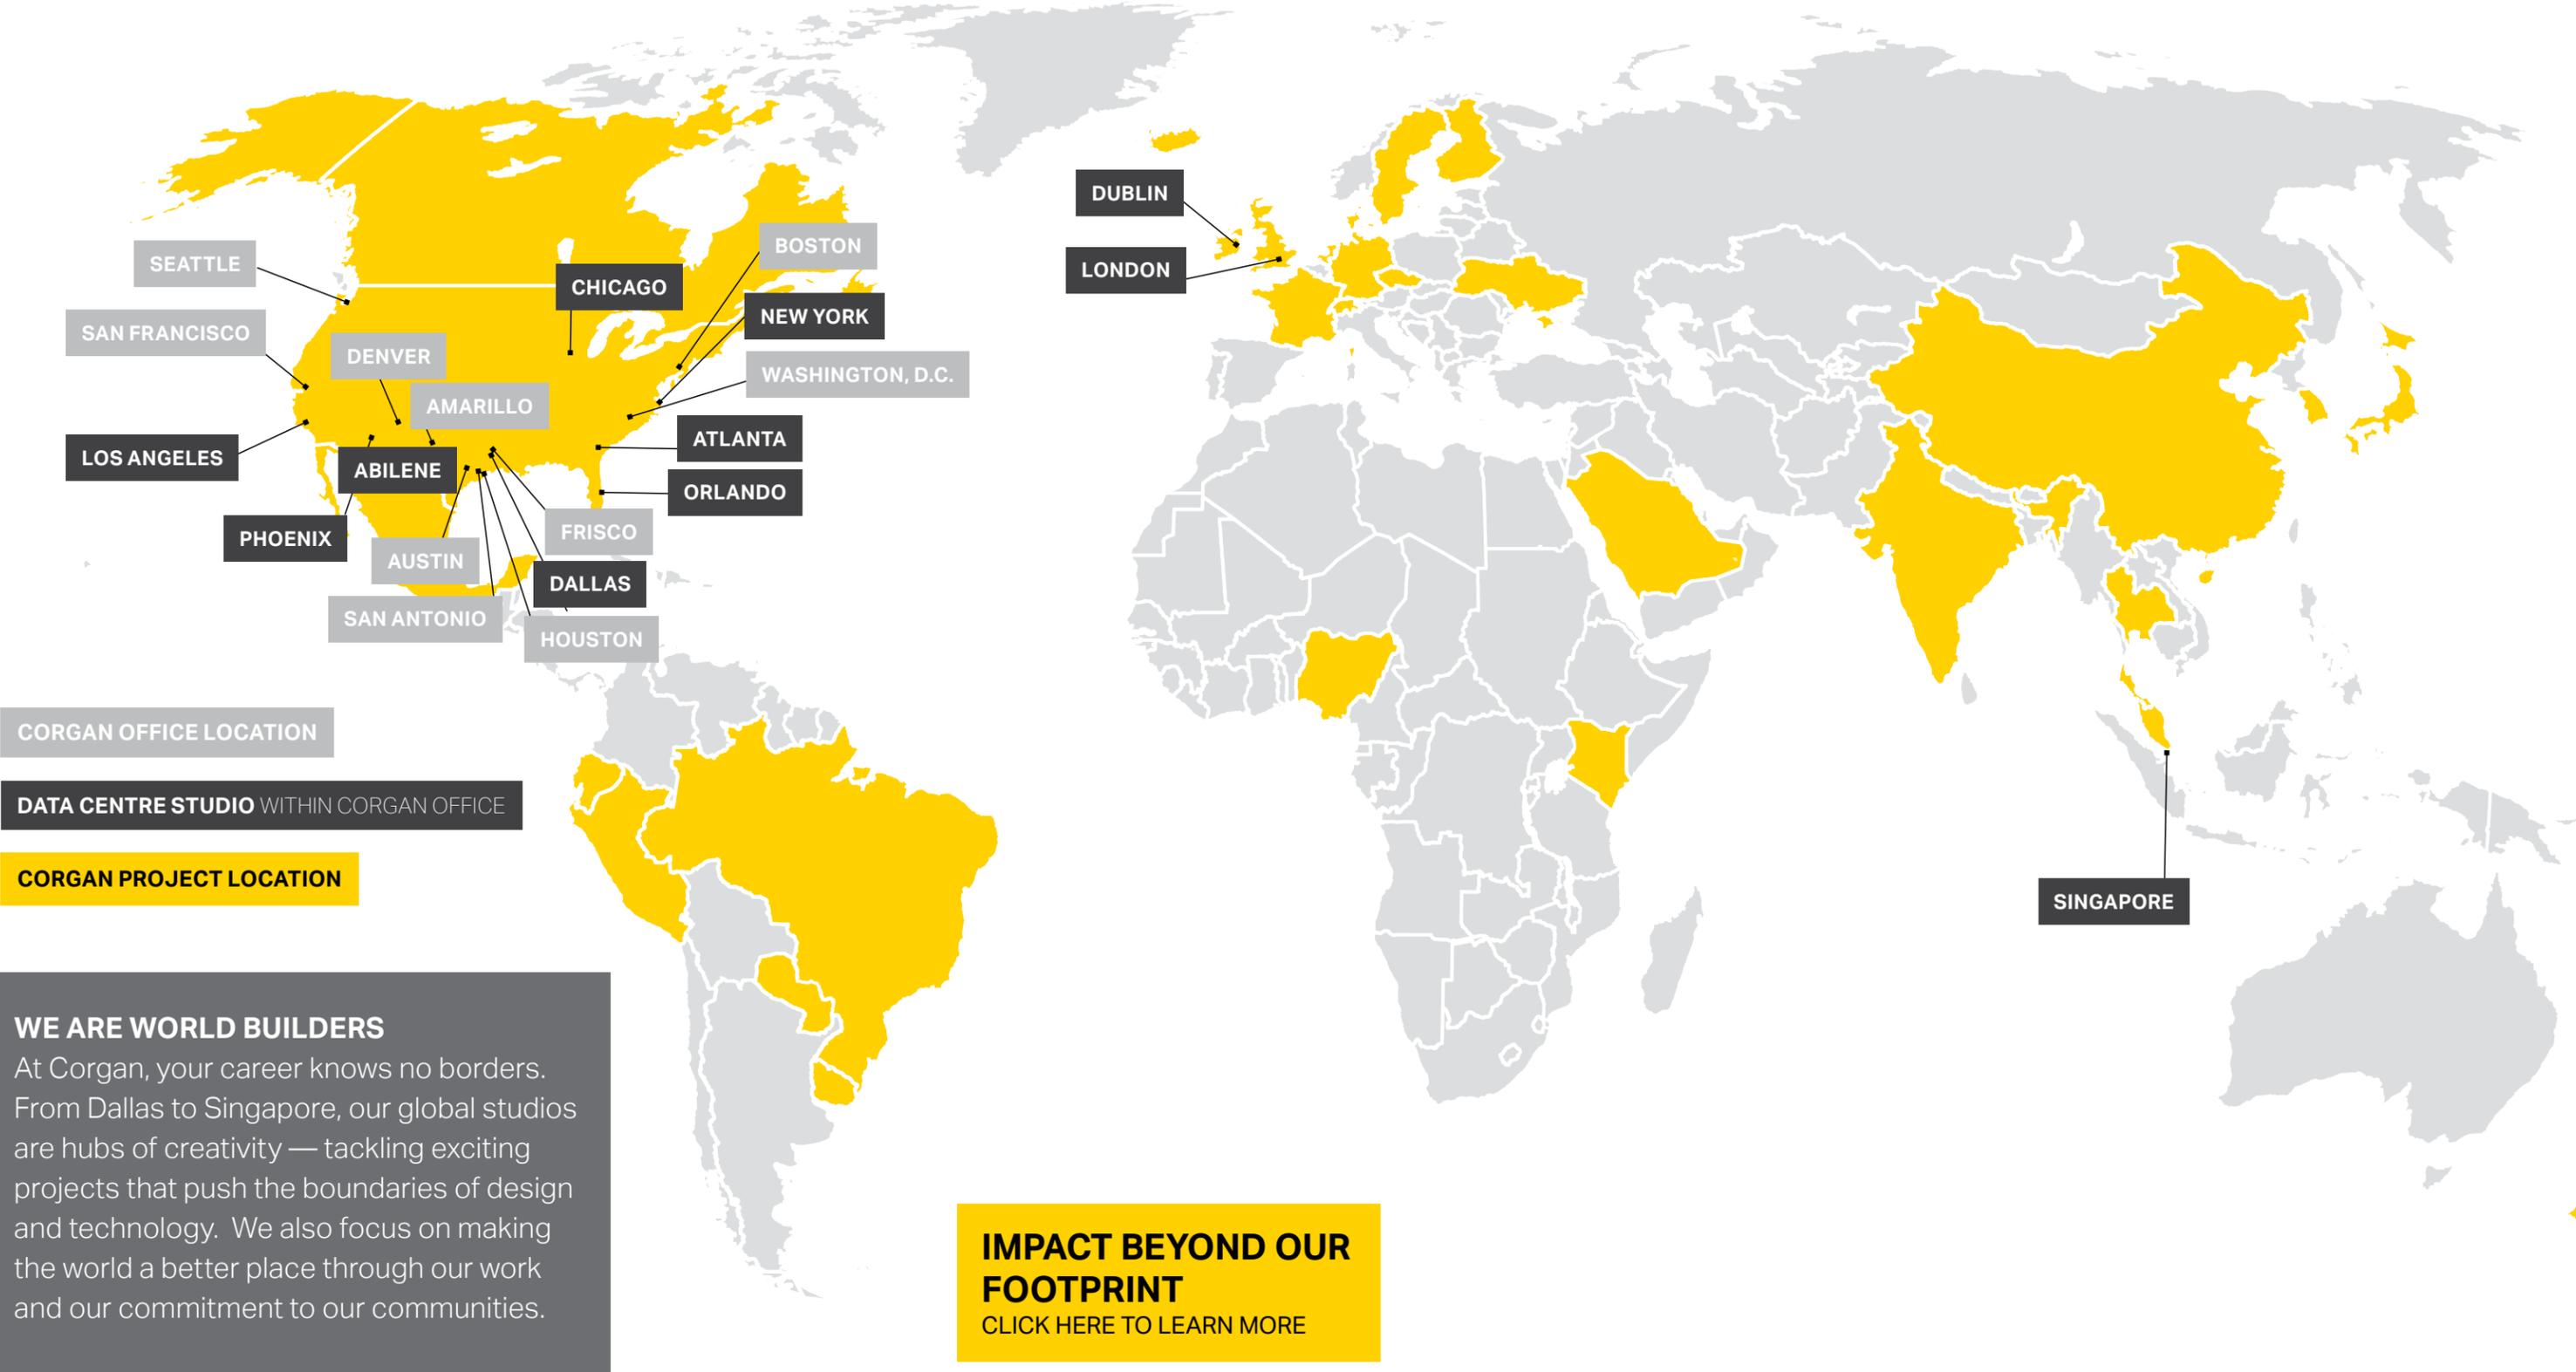

WHAT WE DO

GLOBAL EXPERIENCE, PERSONAL CONNECTIONS

OFFICE LOCATIONS

WE ARE WORLD BUILDERS
At Corgan, your career knows no borders. From Dallas to Singapore, our global studios are hubs of creativity — tackling exciting projects that push the boundaries of design and technology. We also focus on making the world a better place through our work and our commitment to our communities.

DAY-TO-DAY

WE BELIEVE THAT CORGANITES ARE OUR MOST VALUABLE ASSET

We're all employee owners

We're privately owned, but we share our company stock with all employees, free of cost to you! The longer you're a Corganite, the more stock you're given. As an ESOP participant, when Corgan grows, so does your account!

We support your growth

Leaders with open doors, countless opportunities to develop professionally, resources to make your work stronger — we have it all, and then some. But at Corgan, support is about much more than access to people and resources. For us, it's about making an active, personal investment in each other — as mentors, as peers, but more fundamentally, as friends and collaborators who are united by a shared ambition. We don't just win, we win together. And we do it by building each other up as we go. It's one of the biggest reasons that over 95% of our staff would recommend Corgan to someone they know.

We invest in your career

We're here to help you study and pay for registration exams, state licensure, LEED and wellness accreditations, other professional registrations or accreditations — and we provide regular lunch and learns and CEU opportunities.

CORGAN CARES

We care about you...

Corgan has been consistently voted one of the best places to work, and it's no wonder. We've got you covered with benefits both practical and engaging, including two comprehensive medical plans, dental and vision, and mental health support.

and your family

The same comprehensive medical care we offer you is available to your family. We offer fertility benefits and 12 weeks of paid parental leave, which includes adoption. We even offer pet insurance — we can't forget about our four-legged family members! Additionally, our generous PTO package allows for more work/life balance and more time spent with loved ones.

MAKE YOUR MARK

We are committed to diversity and belonging.

We know how important it is to cultivating an environment of trust where all ideas are welcomed and employees feel comfortable and empowered. Inclusion is core to our workplace culture. Belong is the formalization of Corgan's commitment to celebrate and recognize the diverse attributes that make up each of us. We encourage belonging so that all Corganites continue to feel like they are a part of a workplace that is welcoming, warm, and authentic. The sense of belonging fosters a culture that recognizes all Corganites and values the unique qualities that each person brings to our firm, and our world.

We have a servant's heart.

At Corgan, we understand that we have an obligation to give back to our community. That community includes the clients we serve, the neighbors who need our help, and our internal community of team members.

Whether its making after-school lunches for students in need, building and repairing homes for members of our communities, or donating our time to help fight homelessness, and hunger, Corgan has as deep-rooted instinct to give back. With more than 70% of employees involved in various efforts throughout the year, our commitment to our communities is ingrained in our culture.

EMPOWERING EVERYONE
CLICK HERE TO LEARN MORE

DIVERSE BACKGROUNDS

Our team comes from diverse backgrounds and represent over 75 universities across the world on our data centers team alone.

FIRM INITIATIVES

Through multiple firm-wide initiatives, Corgan employees are able to engage their teams, colleagues, and interests to further their careers, knowledge, and design skills.

Corgan Create

Corgan Create celebrates the hidden talents and passions of our team by fostering outside-the-box thinking. Through the exploration of emerging design trends, innovative materials, new methodologies, and creative expression, this program encourages our people to push boundaries and bring fresh ideas to life.

Explore

Explore is an annual travel study prize awarded to one individual in the firm, offering the opportunity to conduct a personal study on architectural or interior design subjects, cities, regions, building types, or related topics. This experience provides valuable insights and perspectives that enrich our practice and inspire innovation.

Forum

Forum is a weekly presentation series where Corgan employees share updates on ongoing and exciting projects. It's a chance to connect, learn, and celebrate our work together. Each session includes cold beverages to help wind down the week, along with festive holiday celebrations throughout the year.

ARE Support

Corgan supports your journey to licensure through our CLEAR program (Corgan Licensing Exam and Resources). As part of this program, we provide study materials to help you prepare for your ARE exams and offer additional benefits to make the process easier. These include paid time off for testing, full coverage of exam fees, and a \$5,000 bonus upon achieving licensure. We're committed to investing in your professional growth and ensuring you have the resources and support needed to succeed.

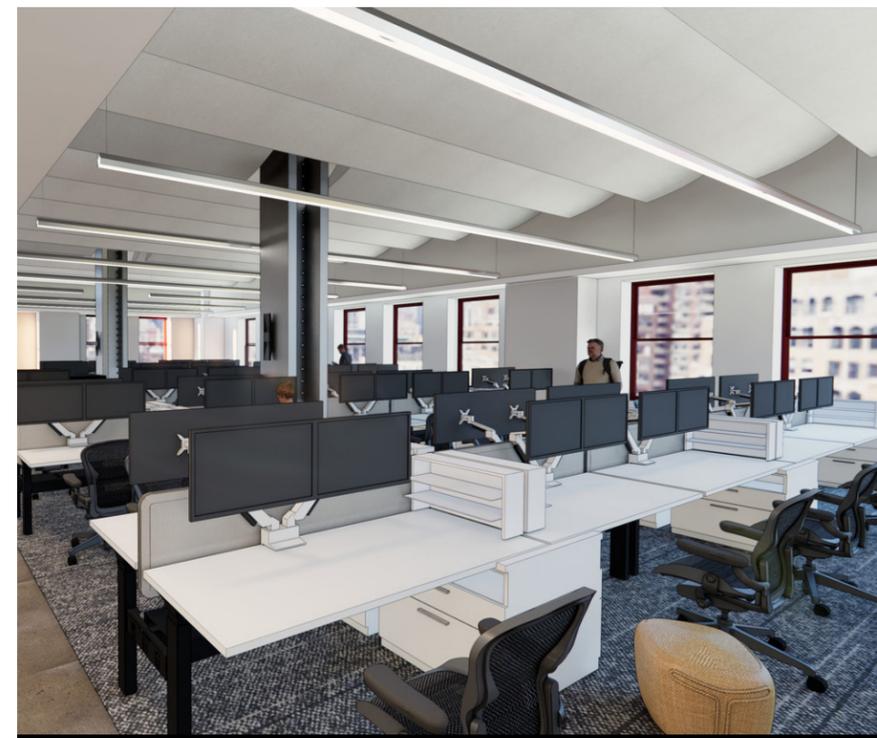

A person wearing glasses and a dark hoodie is shown from the chest up, holding a white architectural model of a building complex. The model is placed on a wooden workbench. The background is a workshop with various tools and equipment hanging on a wooden wall. A semi-transparent white box is overlaid on the image, containing the text "DATA CENTERS OFFICE LOCATIONS".
